Delivering shutter & blind solutions beyond
your expectations

INTERIOR SHUTTERS & BLINDS

CONTEMPORARY SHUTTERS

Our contemporary range of shutters are manufactured to the highest quality standards in 6 different wood types. This enables us to match the style and budget requirements of every customer.

These shutters are designed for interior use only and are available in 5 different blade sizes and 2 different tiltbar styles. The Invisible Tilt™ (hidden tiltbar) is now our most popular shutter as it allows you to have a clear view through the blades, with the tightest louvre closure on the market.

We have an extensive range of standard paint and stain colours and can also offer a custom colour option. Our timber shutters are made from a sustainable resource.

VENETIAN BLINDS

A venetian blind will give you the flexibility of being able to control the UV, light and privacy in your home by simply tilting the slats to the desired angle. The Phoenixwood and Fauxwood Venetians are available in 50mm and 63mm slats with routless cords so there are no holes in the slats when the blinds are closed.

Phoenixwood Venetians - these are available in 14 paint and 17 stain colours matched to our shutter range.

Fauxwood Venetians - these composite blinds are the perfect choice for wet areas like bathrooms and laundries.

Aluminium Venetians - available in 25mm slat or the more modern 50mm slat.

ROLLER BLINDS

We have sourced a huge range of fabrics from a variety of suppliers to bring you the best selection of colours, textures, designs and prices. This allows you to make a decision based on both style and budget, without compromising the final look.

Sunfilters - textured or plain allowing you to filter UV and retain your view.

Lightfilters - maintain privacy at night whilst filtering light in the day.

Blockouts - great for the bedroom where room darkening is essential.

Available in standard chain through to full motorisation.

THERMACELL BLINDS

Thermacell Blinds are an attractive cellular blind that are renowned for their insulation properties. They can increase the thermal insulation of your window by up to 3 times that of a normal curtain.

Light Filtering Fabric - these light filtering fabrics look awesome in all living areas.

Room Darkening Fabric - this is great for darkening and warming the bedrooms.

Cordless option available - perfect for those with young children. Choose from 5 cell sizes and a large range of neutral and bright colours that will enhance the décor in any room of your home.

EXTERIOR SHUTTERS, SCREENS & BLINDS

NEW ZEALAND MADE SHUTTERS

The Heritage Range of shutters are New Zealand made, manufactured from Western Red Cedar by team of skilled craftsmen. We have 4 blade sizes and styles available with the choice of either adjustable or fixed blades. Their uses range from simple gable end and decorative shutters with fixed blades to large shutters with adjustable blades that slide or bifold on decks.

The shutters can be finished with a variety of paint, stain finishes.

Santa Fe is the leading specialist Shutter, Blind & Screening Company. We offer an extensive range of interior window treatments & exterior sun shade solutions, to keep your home cooler in summer and warmer in winter.

ALUMINIUM SHUTTERS

These shutters are manufactured from aluminium and are used extensively as deck shutters to give you protection from the wind and sun as well as privacy from neighbours. Our most popular shutter has 115mm adjustable blades and is also available with 90mm blades. The Ultra range features lockable blades for extra security.

The shutters can be fixed into your deck opening to allow you to adjust the blades to create the perfect environment. Alternatively, to have the deck clear of shutters then they can be installed to slide or bi-fold.

SUNFLEX RANGE

The Sunflex Blind is an exterior motorised venetian blind that gives you full flexibility to control; the heat and UV entering your home. However, unlike many other fixed blade aluminium screens, this also offers you the unique advantage of being able to lift the blind clear of the window at the touch of a button on days when you wish to take advantage of the view or the warmth of the sun.

These blinds look fantastic on any residential or commercial building and are available in 80mm and 100mm slat in 4 standard colours.
